

Birdwings Emergency Procedure

In an emergency the following procedure shall be followed:

- The Senior Tow Coach is to take charge. If they are not available then the nominated deputy shall take charge.
- All towing shall be suspended.
- Any airborne pilots should land as soon as they are aware of the incident.
- The casualty is to be assessed by the nearest First Aider.
- The First Aider decides if the emergency services should be called and communicates this to the Senior Tow Coach.
- The Senior Tow Coach will call the emergency services. If an aviation incident, fall from height they are to use the phrase "casualty fallen from height in remote location". No other person should contact the emergency services as this could cause confusion. However if the Senior Tow Coach is not immediately contactable the First Aider will make (or arrange a person) to make the emergency call.

Site Information:

Site	Road	Post Code	Grid Reference	What 3 Words
East Crash Gate	Northmoor Lane	GL7 5QD	SU05565 98389	thudding. settled. beaker

The Senior Tow Coach shall call the guard room (01285 868247) by phone to advise them of the incident if emergency services are called.

- Access to site for the emergency services will be via the east crash gate. The Senior Tow Coach shall appoint someone to open the crash gate and guide the ambulance.
- Where necessary first aid is to be carried out on the casualty until the Ambulance crew arrive and take over.
